

# INTERNATIONAL CONFERENCE ON MARITIME ENERGY MANAGEMENT

MARENER  
  
2017

World Maritime University, Malmö, Sweden  
24-25 January 2017

## THEMES

- Regulatory Framework
- Energy Efficient Ship Design  
and Operation
- Energy Management in Ports  
and Shipyards
- Economics and Human Element
- Theoretical Aspects of Maritime  
Energy Management
- Alternative Fuels and Marine  
Renewable Energy
- Offshore and Ocean Energy

Energy management is a key strategy for energy efficient and environmentally friendly shipping that enhances profitability within a tightening regulatory framework.

**MARENER 2017** will provide a forum for both researchers and practitioners to examine opportunities and challenges in the field of maritime energy with the aim of achieving an energy efficient and low carbon future for the maritime industry.
